

Annual Notification Letter

This notice is to inform you that Blissfield Community Schools has completed an asbestos inspection and management plan as required by the Asbestos Hazard Emergency Response Act (AHERA). The management plan has been accepted by the State of Michigan and is available for your review in the office of each school building.

The management plan contains information regarding the locations of asbestos-containing materials (ACM) in all school buildings, the condition of the ACM and a plan for dealing with the ACM..

At least once each school year, the district will inform you in a similar manner about asbestos activities including: re-inspection, periodic surveillance, response actions, and post response action activities that are planned or in progress.

The following asbestos activities are currently planned or in progress for the district:

Re-inspection: A re-inspection of all district building is required by law every three years after implementation of the management plan. Our re-inspection was completed in July of 2007.

Periodic Surveillance: Once every six months, ACM must be visually inspected for changes in conditions. This will be performed by school personnel. Our periodic surveillance schedule for this year is in January.

Response Action: These are activities designed to reduce or eliminate the potential for asbestos-containing materials (ACM) present in the district buildings.

If you have any further questions or concerns, regarding this process, please contact the district designated person, Tom Kasefang, Facilities Director at 517-486-2205 ext. 3203
