

TIPS FOR NAVIGATING A ROUNDABOUT

Football Field

Never walk across the circulating lane(s) in a roundabout to the center island

1. Reduce speed on approach
2. Watch for pedestrians and bicyclists
3. Look left and yield to oncoming traffic
4. Enter the roundabout when there's a break in traffic
5. Drive around the circle until you get to your exit.
6. Use your turn signal, watch for other cars, and exit safety
7. Keep in mind that roundabouts are one way

Approaching vehicles must yield to pedestrians in the crosswalk and to traffic in the roundabout
